

Course objectives

To provide professional quality Dangerous Goods Regulations training, under the IATA cargo training accreditation programme, for any person involved in the air transportation of dangerous goods; and refresher training for existing Dangerous Goods certificate holders requiring revalidation of their Dangerous Goods certificate.

Syllabus

Basic course (5 days) – introduction to the general application of IATA Dangerous Goods Regulations; principles of Dangerous Goods packaging, handling and aircraft loading; classification; documentation; shipper/carrier responsibilities, government regulations/exceptions; and emergency response.

Refresher course (3 days) – a compact course with emphasis on the latest IATA Dangerous Goods Regulations/carrier/government requirements; handling techniques, case studies and emergency response.

Language

Lectures are conducted in Cantonese; class works and examinations are in English.

Certification award and requirements

Participants successfully passing the course examination with at least 80% score are eligible to IATA certification that carries a 24-month.

IATA Dangerous Goods Regulations Basic Course	<ul style="list-style-type: none"> ➤ HKD 4,000* for single registration in the Course Code ➤ HKD 3,500* each for subsequent registration from the same company in the identical Course Code <p>* Course Fees include handouts and IATA Dangerous Goods Certificate (For qualified participants)</p>
